

THE COCONINO SUN

takes the department some time to move. The spring, summer and fall of 1897 was very dull in Globe, and from the business of that year is estimated the salary the postmaster shall receive this year. Judging from the amount of business transacted this year since the beginning of the present postal year on April 1st, it is estimated that if the good times continue the salary of the office next year will probably be raised to \$1,500.
